Subject Index

Volume 14, January-December 1994

A

Abdominal obesity

Relations of Plasma TG and HDL-C Concentrations to Body Composition and Plasma Insulin Levels Are Altered in Men With Small LDL Particles, 1121

Abdominal visceral obesity

ApoB-100 Gene *EcoRI* Polymorphism: Relations to Plasma Lipoprotein Changes Associated With Abdominal Visceral Obesity, 527

Actin isoforms

Rat Aortic Smooth Muscle Cells Isolated From Different Layers and at Different Times After Endothelial Denudation Show Distinct Biological Features In Vitro, 982

Acute phase

Serum Amyloid A Protein Family: Differential Induction by Oxidized Lipids in Mouse Strains, 1475

Acyl coenzyme A:cholesterol acyltransferase

Inhibition of Hepatic ACAT Decreases ApoB Secretion in Miniature Pigs Fed a Cholesterol-Free Diet, 1498

Acyl coenzyme A:cholesterol acyltransferase

ACAT Inhibition Decreases LDL Cholesterol in Rabbits Fed a Cholesterol-Free Diet: Marked Changes in LDL Cholesterol Without Changes in LDL Receptor mRNA Abundance, 598
Purification, Cloning, and Expression of a Human Enzyme With Acyl Coenzyme A: Cholesterol Acyltransferase Activity, Which Is Identical to Liver Carboxylesterase, 1346

Adhesion molecules

Partial Characterization of Leukocyte Binding Molecules on Endothelial Cells Induced by Minimally Oxidized LDL, 427
Pathology of Atheromatous Lesions in Inbred and Genetically Engineered Mice: Genetic Determination of Arterial Calcification, 1480

ADP

Epinephrine Sensitizes Human Platelets In Vivo and In Vitro as Studied by Fibrinogen Binding and P-Selectin Expression, 77

β -Adrenergic agonists

Lipoprotein Lipase Is Produced by Cardiac Myocytes Rather Than Interstitial Cells in Human Myocardium, 1445

Age

Dietary Polyunsaturated Fat Decreases Coronary Artery Atherosclerosis in a Pediatric-Aged Population of African Green Monkeys, 587

Aggregometry

L-Arginine Attenuates Platelet Reactivity in Hypercholesterolemic Rabbits, 1529

Aging

Fluorogenic Assay of Activated Factor VII: Plasma Factor VIIa Levels in Relation to Arterial Cardiovascular Diseases in Japanese, 265

AHA Medical/Scientific Statement

A Definition of Initial, Fatty Streak, and Intermediate Lesions of Atherosclerosis: A Report From the Committee on Vascular Lesions of the Council on Arteriosclerosis, American Heart Association, 840

Proceedings of the Nutrition Research/Cardiovascular Disease Conference: American Heart Association, Dallas, Tex, 1880

Alimentary lipemia

Activation of Coagulation Factor VII During Alimentary Lipemia, 60

Allograft arteriosclerosis

Cytomegalovirus Infection Enhances mRNA Expression of Platelet-Derived Growth Factor-BB and Transforming Growth Factor- β_1 in Rat Aortic Allografts: Possible Mechanism for Cytomegalovirus-Enhanced Graft Arteriosclerosis, 2043

Hyperlipidemia Accelerates Allograft Arteriosclerosis (Chronic Rejection) in the Rat, 2032

Alloxan diabetes

Increased Expression In Vivo of VCAM-1 and E-Selectin by the Aortic Endothelium of Normolipemic and Hyperlipemic Diabetic Rabbits, 760

Amphipathic helix classes A, Y, G*, G, and B

ApoB-100 Has a Pentapartite Structure Composed of Three Amphipathic α -Helical Domains Alternating With Two Amphipathic β -Strand Domains: Detection by the Computer Program LOCATE, 1674

Aneurysm

Identification of Matrix Metalloproteinases 3 (Stromelysin-1) and 9 (Gelatinase B) in Abdominal Aortic Aneurysm, 1315

Angiography

Arterial Imaging and Atherosclerosis Reversal, 177
DNA Variants at the LPL Gene Locus Associate With Angiographically Defined Severity of Atherosclerosis and Serum Lipoprotein Levels in a Welsh Population, 1090

Angioplasty

Cell Proliferation After Balloon Injury of Iliac Arteries in the Cholesterol-Fed New Zealand White Rabbit, 727
Inhibition of PDGF Receptor Binding and PDGF-Stimulated Biological Activity In Vitro and of Intimal Lesion Formation In Vivo by 2-Bromomethyl-5-Chlorobenzene Sulfonylphthalimide, 1047

Angiotensin II

Effects of Candidate Autocrine and Paracrine Mediators on Growth Responses in Isolated Rat Arteries, 420

Animal model

Social Status and Coronary Artery Atherosclerosis in Female Monkeys, 721

Animal models

Apolipoprotein B and a Second Major Gene Locus Contribute to Phenotypic Variation of Spontaneous Hypercholesterolemia in Pigs, 409
Atherosclerosis in Mice Lacking Apo E: Evaluation of Lesional Development and Progression, 141
Differential Neointimal Response to Coronary Artery Injury in Pigs and Dogs: Implications for Restenosis Models, 395

Annexin V

Annexin V Inhibits the Procoagulant Activity of Matrices of TNF-Stimulated Endothelium Under Blood Flow Conditions, 824

Anti-GPIIb/IIIa antibody

Contribution of Platelets and the Vessel Wall to the Antithrombotic Effects of a Single Bolus Injection of Fab Fragments of the Antiplatelet GPIIb/IIIa Antibody 7E3 in a Canine Arterial Eversion Graft Preparation, 375
Time Course of the Effects of a Single Bolus Injection of F(ab')₂ Fragments of the Antiplatelet GPIIb/IIIa Antibody 7E3 on Arterial Eversion Graft Occlusion, Platelet Aggregation, and Bleeding Time in Dogs, 367

Anti-oxidized LDL autoantibodies

LDL Oxidation in Patients With Severe Carotid Atherosclerosis: A Study of In Vitro and In Vivo Oxidation Markers, 1892

Antioxidants

Chronic Exposure of Cultured Bovine Endothelial Cells to Oxidized LDL Abolishes Prostacyclin Release, 453
LDL Oxidation in Patients With Severe Carotid Atherosclerosis: A Study of In Vitro and In Vivo Oxidation Markers, 1892
Plasma Essential Fatty Acids, Cigarette Smoking, and Dietary Antioxidants in Peripheral Arterial Disease: A Population-Based Case-Control Study, 471
Radical-Mediated Oxidation of Isolated Human Very-Low-Density Lipoprotein, 1186

Vitamin E Protects Against Impairment of Endothelium-Mediated Relaxations in Cholesterol-Fed Rabbits, 494

Antiplatelet agents

Contribution of Platelets and the Vessel Wall to the Antithrombotic Effects of a Single Bolus Injection of Fab Fragments of the Antiplatelet GPIIb/IIIa Antibody 7E3 in a Canine Arterial Eversion Graft Preparation, 375

Time Course of the Effects of a Single Bolus Injection of F(ab')₂ Fragments of the Antiplatelet GPIIb/IIIa Antibody 7E3 on Arterial Eversion Graft Occlusion, Platelet Aggregation, and Bleeding Time in Dogs, 367

Antiproliferative activity

Antiproliferative Activity to Vascular Smooth Muscle Cells and Receptor Binding of Heparin-Mimicking Polyaromatic Anionic Compounds, 1992

Antiproliferative effects

Antithrombin III Inhibits Thrombin-Induced Proliferation in Human Arterial Smooth Muscle Cells, 254

Antithrombin

Three Novel Mutations of Antithrombin Inducing High-Molecular-Mass Compounds, 1958

Antithrombin III

Antithrombin III Inhibits Thrombin-Induced Proliferation in Human Arterial Smooth Muscle Cells, 254

Aorta

Cholesterol-Fed and Casein-Fed Rabbit Models of Atherosclerosis: Part 1: Differing Lesion Area and Volume Despite Equal Plasma Cholesterol Levels, 95

Cholesterol-Fed and Casein-Fed Rabbit Models of Atherosclerosis: Part 2: Differing Morphological Severity of Atherogenesis Despite Matched Plasma Cholesterol Levels, 105

Mast Cells of Two Types Differing in Neutral Protease Composition in the Human Aortic Intima: Demonstration of Trypsin- and Trypsin/Chymase-Containing Mast Cells in Normal Intimas, Fatty Streaks, and the Shoulder Region of Atheromas, 966

Aorta-allografted rabbit

Cyclosporin Suppresses Transplant Arteriosclerosis in the Aorta-Allografted, Cholesterol-Clamped Rabbit: Suppression Preceded by Decrease in Arterial Lipoprotein Permeability, 944

Aortic permeability

Aortic Permeability to LDL During Estrogen Therapy: A Study in Normocholesterolemic Rabbits, 243

Aortic stiffness

Relation of Aortic Stiffness to Factors Modifying the Risk of Atherosclerosis in Healthy People, 386

Aortocoronary bypass surgery

Coronary Artery Disease Is Associated With Increased Lipoprotein(a) Concentrations Independent of the Size of Circulating Apolipoprotein(a) Isoforms, 1272

Apo B

DNA Variants at the LPL Gene Locus Associate With Angiographically Defined Severity of Atherosclerosis and Serum Lipoprotein Levels in a Welsh Population, 1090

PAF-Acether-Degrading Acetylhydrolase in Plasma LDL Is Inactivated by Copper- and Cell-Mediated Oxidation, 353

Apo E

ApoE-Deficient Mice Develop Lesions of All Phases of Atherosclerosis Throughout the Arterial Tree, 133

Atherosclerosis in Mice Lacking Apo E: Evaluation of Lesional Development and Progression, 141

Characteristics of 46 Heterozygous Carriers and 57 Unaffected Relatives in Five Danish Families With Familial Defective Apolipoprotein B-100, 207

Apo E isoforms

Effect of Human ApoE4 on the Clearance of Chylomicron-like Lipid Emulsions and Atherogenesis in Transgenic Mice, 1542

ApoA-I

Concentrations of Apolipoprotein A-I-Containing Particles in Patients With Hypoalphalipoproteinemia, 511

Familial and Diet-Induced Hypercholesterolemia in Swine: Lipid, ApoB, and ApoA-I Concentrations and Distributions in Plasma and Lipoprotein Subfractions, 923

ApoA-I metabolism

Human HDL Cholesterol Levels Are Determined by ApoA-I Fractional Catabolic Rate, Which Correlates Inversely With Estimates of HDL Particle Size: Effects of Gender, Hepatic and Lipoprotein Lipases, Triglyceride and Insulin Levels, and Body Fat Distribution, 707

ApoA-II metabolism

Human HDL Cholesterol Levels Are Determined by ApoA-I Fractional Catabolic Rate, Which Correlates Inversely With Estimates of HDL Particle Size: Effects of Gender, Hepatic and Lipoprotein Lipases, Triglyceride and Insulin Levels, and Body Fat Distribution, 707

apo(a) phenotype

Apolipoprotein(a) Phenotypes Predict the Risk for Carotid Atherosclerosis in Patients With End-Stage Renal Disease, 1405

Association of Apolipoprotein(a) Phenotypes in Children With Family History of Premature Coronary Artery Disease, 1609

APOA4 polymorphism

A Common Deletion Polymorphism in the Apolipoprotein A4 Gene and Its Significance in Lipid Metabolism, 656

ApoB

Familial and Diet-Induced Hypercholesterolemia in Swine: Lipid, ApoB, and ApoA-I Concentrations and Distributions in Plasma and Lipoprotein Subfractions, 923

Genetic Predictors of FCHL in Four Large Pedigrees: Influence of ApoB Level Major Locus Predicted Genotype and LDL Subclass Phenotype, 1687

ApoB-48

ApoB-100 Has a Pentapartite Structure Composed of Three Amphipathic α -Helical Domains Alternating With Two Amphipathic β -Strand Domains: Detection by the Computer Program LOCATE, 1674

ApoB metabolism

Inhibition of Hepatic ACAT Decreases ApoB Secretion in Miniature Pigs Fed a Cholesterol-Free Diet, 1498

ApoE

Effect of Insulin Resistance, ApoE2 Allele, and Smoking on Combined Hyperlipidemia, 1576

ApoE polymorphism

ApoE Polymorphism and Predisposition to Coronary Heart Disease in Youths of Different European Populations: The EARS Study, 1617

Apolipoprotein A-I

Cotranslational Inhibition of ApoB-100 Synthesis by Cyclosporin A in the Human Hepatoma Cell Line HepG2, 780

Distribution of Subclasses of HDL Containing ApoA-I Without ApoA-II (LpA-I) in Normolipidemic Men and Women, 1594

HDL and Apolipoprotein A-I Protect Erythrocytes Against the Generation of Procoagulant Activity, 1775

Apolipoprotein A-IV

ApoA-IV Phenotype Affects Diet-Induced Plasma LDL Cholesterol Lowering, 884

Apolipoprotein B

ACAT Inhibition Decreases LDL Cholesterol in Rabbits Fed a Cholesterol-Free Diet: Marked Changes in LDL Cholesterol Without Changes in LDL Receptor mRNA Abundance, 598

ApoB-100 Gene *EcoRI* Polymorphism: Relations to Plasma Lipoprotein Changes Associated With Abdominal Visceral Obesity, 527

ApoB Metabolism in Familial Hypercholesterolemia: Inconsistencies With the LDL Receptor Paradigm, 501

Pravastatin Effectively Lowers LDL Cholesterol in Familial Combined Hyperlipidemia Without Changing LDL Subclass Pattern, 1569

Apolipoprotein B-100

Cotranslational Inhibition of ApoB-100 Synthesis by Cyclosporin A in the Human Hepatoma Cell Line HepG2, 780

Apolipoprotein E

ApoE-Deficient Mice Are a Model of Lipoprotein Oxidation in Atherogenesis: Demonstration of Oxidation-Specific Epitopes in Lesions and High Titers of Autoantibodies to Malondialdehyde-Lysine in Serum, 605

- Effects of Gender and Menopausal Status on the Association of Apolipoprotein E Phenotype With Plasma Lipoprotein Levels: Results From the Framingham Offspring Study, 1105

Arterial stiffness

Correlation of Ultrasound-Measured Common Carotid Artery Stiffness With Pathological Findings, 479

Arterial thrombosis

Contribution of Platelets and the Vessel Wall to the Antithrombotic Effects of a Single Bolus Injection of Fab Fragments of the Antiplatelet GPIIb/IIIa Antibody 7E3 in a Canine Arterial Eversion Graft Preparation, 375

Time Course of the Effects of a Single Bolus Injection of F(ab')₂ Fragments of the Antiplatelet GPIIb/IIIa Antibody 7E3 on Arterial Eversion Graft Occlusion, Platelet Aggregation, and Bleeding Time in Dogs, 367

Arterial tissue culture

Effects of Candidate Autocrine and Paracrine Mediators on Growth Responses in Isolated Rat Arteries, 420

Arteries

Characterization of Sites With Elevated LDL Permeability at Intercostal, Celiac, and Iliac Branches of the Normal Rabbit Aorta, 313

Lipoproteins Are Major and Primary Mitogens and Growth Promoters for Human Arterial Smooth Muscle Cells and Lung Fibroblasts In Vitro, 288

Structural Organization of Reconstituted Human Arterial Smooth Muscle Tissue, 644

Arteriosclerosis

ApoE-Deficient Mice Are a Model of Lipoprotein Oxidation in Atherogenesis: Demonstration of Oxidation-Specific Epitopes in Lesions and High Titers of Autoantibodies to Malondialdehyde-Lysine in Serum, 605

Inhibition of PDGF Receptor Binding and PDGF-Stimulated Biological Activity In Vitro and of Intimal Lesion Formation In Vivo by 2-Bromomethyl-5-Chlorobenzene Sulfonylphthalimide, 1047

Platelet Calcium Homeostasis Is Abnormal in Patients With Severe Arteriosclerosis, 1420

Asians

Association of Factor VII Genotype With Plasma Factor VII Activity and Antigen Levels in Healthy Indian Adults and Interaction With Triglycerides, 1923

Aspirin

Effects of Chronic Administration of Ethanol on Platelets From Rabbits With Diet-Induced Hypercholesterolemia: Unchanged Characteristics and Responses to ADP but Reduction of Enhanced Thrombin-Induced, TxA₂-Independent Platelet Responses, 1372

Modulation of Thrombotic Responses in Moderately Stenosed Arteries by Cigarette Smoking and Aspirin Ingestion, 617

Ataxia telangiectasia

Increased Radiosensitivity and Radioresistant DNA Synthesis in Cultured Fibroblasts From Patients With Coronary Atherosclerosis, 1761

Atherogenesis

Antiproliferative Effect of Desferrioxamine on Vascular Smooth Muscle Cells In Vitro and In Vivo, 299

Chronic Inhibition of Nitric Oxide Production Accelerates Neointimal Formation and Impairs Endothelial Function in Hypercholesterolemic Rabbits, 753

PAF-Acether-Degrading Acetylhydrolase in Plasma LDL Is Inactivated by Copper- and Cell-Mediated Oxidation, 353

Serum Amyloid A Protein Family: Differential Induction by Oxidized Lipids in Mouse Strains, 1475

The Omega-3 Fatty Acid Docosahexaenoate Reduces Cytokine-Induced Expression of Proatherogenic and Proinflammatory Proteins in Human Endothelial Cells, 1829

Atheromatosis

Rat Aortic Smooth Muscle Cells Isolated From Different Layers and at Different Times After Endothelial Denudation Show Distinct Biological Features In Vitro, 982

Atherosclerosis

¹³C-NMR Spectroscopy of Human Atherosclerotic Lesions: Relation Between Fatty Acid Saturation, Cholesteryl Ester Content, and Luminal Obstruction, 1951

A Gene-Gender Interaction Affecting Plasma Lipoproteins in a Genetic Isolate, 671

A Nonsense Mutation in the Apolipoprotein A-I Gene Is Associated With High-Density Lipoprotein Deficiency and Periorbital Xanthelasma, 1915

Aortic Permeability to LDL During Estrogen Therapy: A Study in Normocholesterolemic Rabbits, 243

ApoE-Deficient Mice Develop Lesions of All Phases of Atherosclerosis Throughout the Arterial Tree, 133

Apolipoprotein(a) Phenotype-Associated Decrease in Lipoprotein(a) Plasma Concentrations After Renal Transplantation, 1399

Arterial Imaging and Atherosclerosis Reversal, 177

Associations of Lipoprotein Cholesterols, Apolipoproteins A-I and B, and Triglycerides With Carotid Atherosclerosis and Coronary Heart Disease: The Atherosclerosis Risk in Communities (ARIC) Study, 1098

Atherosclerotic Plaque Evolution in the Descending Thoracic Aorta in Familial Hypercholesterolemic Patients: A Transesophageal Echo Study, 1723

Binding Of Recombinant Apolipoprotein(a) to Extracellular Matrix Proteins, 1792

Cell Compositions of Coronary and Aortic Atherosclerotic Lesions in WHHL Rabbits Differ: An Immunohistochemical Study, 931

Cellular Receptors for Advanced Glycation End Products: Implications for Induction of Oxidant Stress and Cellular Dysfunction in the Pathogenesis of Vascular Lesions, 1521

Changes in the Caldesmon Isoform Content and Intimal Thickening in the Rabbit Carotid Artery Induced by a Silicone Elastomer Collar, 1837

Characteristics of 46 Heterozygous Carriers and 57 Unaffected Relatives in Five Danish Families With Familial Defective Apolipoprotein B-100, 207

Cholesterol-Fed and Casein-Fed Rabbit Models of Atherosclerosis: Part 1: Differing Lesion Area and Volume Despite Equal Plasma Cholesterol Levels, 95

Cholesterol-Fed and Casein-Fed Rabbit Models of Atherosclerosis: Part 2: Differing Morphological Severity of Atherosclerosis Despite Matched Plasma Cholesterol Levels, 105

Comparative Study on the Effect of Low-Dose Vitamin E and Probucol on the Susceptibility of LDL to Oxidation and the Progression of Atherosclerosis in Watanabe Heritable Hyperlipidemic Rabbits, 1386

Coronary Artery Disease Is Associated With Increased Lipoprotein(a) Concentrations Independent of the Size of Circulating Apolipoprotein(a) Isoforms, 1272

Correlation of Ultrasound-Measured Common Carotid Artery Stiffness With Pathological Findings, 479

Decreased Resistance Against In Vitro Oxidation of LDL From Patients With Familial Defective Apolipoprotein B-100, 489

Detection and Quantitation of Calcific Atherosclerosis by Ultrafast Computed Tomography in Children and Young Adults With Homozygous Familial Hypercholesterolemia, 1066

Development of the Atherosclerotic Core Region: Chemical and Ultrastructural Analysis of Microdissected Atherosclerotic Lesions From Human Aorta, 1305

Differential Expression of Scavenger Receptor Isoforms During Monocyte-Macrophage Differentiation and Foam Cell Formation, 798

Diversity of T-Cell Antigen Receptor V β Gene Utilization in Advanced Human Atheroma, 1210

Effects of Linoleate-Enriched and Oleate-Enriched Diets in Combination With α -Tocopherol on the Susceptibility of LDL and LDL Subfractions to Oxidative Modification in Humans, 557

Expression of LDL Receptor-Related Protein/ α -Macroglobulin Receptor in Human Normal and Atherosclerotic Arteries, 1438

Human Leukemia Inhibitory Factor Inhibits Development of Experimental Atherosclerosis, 1356

Increased Expression In Vivo of VCAM-1 and E-Selectin by the Aortic Endothelium of Normolipemic and Hyperlipemic Diabetic Rabbits, 760

Increased Intima-Media Thickness of the Common Carotid Artery in Hypercholesterolemic Children, 1075

Increased Radiosensitivity and Radioresistant DNA Synthesis in Cultured Fibroblasts From Patients With Coronary Atherosclerosis, 1761

L-Arginine Attenuates Platelet Reactivity in Hypercholesterolemic Rabbits, 1529

LDL Oxidation in Patients With Severe Carotid Atherosclerosis: A Study of In Vitro and In Vivo Oxidation Markers, 1892

Lipoproteins Are Major and Primary Mitogens and Growth Promoters for Human Arterial Smooth Muscle Cells and Lung Fibroblasts In Vitro, 288

Long-term Induction and Regression of Diet-Induced Atherosclerotic Lesions in Rhesus Monkeys: I. Morphological and Chemical Evidence for Regression of Lesions in the Aorta and Carotid and Peripheral Arteries, 958

Long-term Inhibition of NO Synthesis Promotes Atherosclerosis in the Hypercholesterolemic Rabbit Thoracic Aorta: PGH₂ Does Not Contribute to Impaired Endothelium-Dependent Relaxation, 746

Macrophage Foam Cell Lipoprotein(a)/Apoprotein(a) Receptor: Cell-Surface Localization, Dependence of Induction on New Protein Synthesis, and Ligand Specificity, 1337

Mast Cells of Two Types Differing in Neutral Protease Composition in the Human Aortic Intima: Demonstration of Trypsin- and Trypsin/Chymase-Containing Mast Cells in Normal Intimas, Fatty Streaks, and the Shoulder Region of Atheromas, 966

Mechanical Properties of Model Atherosclerotic Lesion Lipid Pools, 230

n-3 Fatty Acid Incorporation Into LDL Particles Renders Them More Susceptible to Oxidation In Vitro but Not Necessarily More Atherogenic In Vivo, 1170

Opposite In Vitro and In Vivo Regulation of Hepatic Apolipoprotein A-I Gene Expression by Retinoic Acid: Absence of Effects on Apolipoprotein A-II Gene Expression, 1657

Osteopontin Is Synthesized by Macrophage, Smooth Muscle, and Endothelial Cells in Primary and Restenotic Human Coronary Atherosclerotic Plaques, 1648

Oxidation of LDL To a Biologically Active Form by Derivatives of Nitric Oxide and Nitrite in the Absence of Superoxide: Dependence on pH and Oxygen, 1808

Oxidized LDL Enhances Lipopolysaccharide-Induced Tissue Factor Expression in Human Adherent Monocytes, 790

Oxidized LDL Induces Monocytic Cell Expression of Interleukin-8, a Chemokine With T-Lymphocyte Chemotactic Activity, 47

Pathology of Atheromatous Lesions in Inbred and Genetically Engineered Mice: Genetic Determination of Arterial Calcification, 1480

Plasma Essential Fatty Acids, Cigarette Smoking, and Dietary Antioxidants in Peripheral Arterial Disease: A Population-Based Case-Control Study, 471

Presence of LDL Receptor-Related Protein/ α_2 -Macroglobulin Receptors in Macrophages of Atherosclerotic Lesions From Cholesterol-Fed New Zealand and Heterozygous Watanabe Heritable Hyperlipidemic Rabbits, 2017

Rabbit and Human Atherosclerotic Lesions Contain IgG That Recognizes Epitopes of Oxidized LDL, 32

Radical-Mediated Oxidation of Isolated Human Very-Low-Density Lipoprotein, 1186

Short-term Consumption of a Low-Fat Diet Beneficially Affects Plasma Lipid Concentrations Only When Accompanied by Weight Loss: Hypercholesterolemia, Low-Fat Diet, and Plasma Lipids, 1751

Structural Organization of Reconstituted Human Arterial Smooth Muscle Tissue, 644

Susceptibility of Human LDL to Oxidative Modification: Effects of Variations in β -Carotene Concentration and Oxygen Tension, 1162

Ultrasonographic Manifestations of Common Carotid Atherosclerosis in Elderly Eastern Finnish Men: Prevalence and Associations With Cardiovascular Diseases and Risk Factors, 1631

Ultrasound-Determined Intima-Media Thickness and Atherosclerosis: Direct and Indirect Validation, 261

Atherosclerosis risk factors

Glycosaminoglycan Fractions From Human Arteries Presenting Diverse Susceptibilities to Atherosclerosis Have Different Binding Affinities to Plasma LDL, 115

Atherosclerosis, very-low-density lipoprotein

Triglyceride-Rich Lipoproteins Isolated by Selected-Affinity Anti-Apolipoprotein B Immunosorption From Human Atherosclerotic Plaque, 1767

Atherosclerotic lesions

Atherosclerosis in Mice Lacking Apo E: Evaluation of Lesional Development and Progression, 141

Atherosclerotic plaques

Liposome-like Particles Isolated From Human Atherosclerotic Plaques Are Structurally and Compositionally Similar to Surface Remnants of Triglyceride-Rich Lipoproteins, 622

Aurintricarboxylic acid

Antiproliferative Activity to Vascular Smooth Muscle Cells and Receptor Binding of Heparin-Mimicking Polyaromatic Anionic Compounds, 1992

Autoantibodies

ApoE-Deficient Mice Are a Model of Lipoprotein Oxidation in Atherogenesis: Demonstration of Oxidation-Specific Epitopes in Lesions and High Titers of Autoantibodies to Malondialdehyde-Lysine in Serum, 605

B

B-mode ultrasound

Apolipoprotein(a) Phenotypes Predict the Risk for Carotid Atherosclerosis in Patients With End-Stage Renal Disease, 1405

Ultrasonographic Manifestations of Common Carotid Atherosclerosis in Elderly Eastern Finnish Men: Prevalence and Associations With Cardiovascular Diseases and Risk Factors, 1631

Basic fibroblast growth factor

Effects of Candidate Autocrine and Paracrine Mediators on Growth Responses in Isolated Rat Arteries, 420

Beef tallow

Hypercholesterolemic Effect of Dietary Cholesterol in Diets Enriched in Polyunsaturated and Saturated Fat: Dietary Cholesterol, Fat Saturation, and Plasma Lipids, 168

Betaine

Treatment of Mild Hyperhomocysteinemia in Vascular Disease Patients, 465

Binding sites

Platelet LDL Receptor Recognizes With the Same Apparent Affinity Both Oxidized and Native LDL: Evidence That the Receptor-Ligand Complexes Are Not Internalized, 401

Biomechanics

Mechanical Properties of Model Atherosclerotic Lesion Lipid Pools, 230

Mechanically Induced Calcium Mobilization in Cultured Endothelial Cells Is Dependent on Actin and Phospholipase, 2000

Blood flow

Annexin V Inhibits the Procoagulant Activity of Matrices of TNF-Stimulated Endothelium Under Blood Flow Conditions, 824

Tissue Factor-Induced Coagulation Triggers Platelet Thrombus Formation as Efficiently as Fibrillar Collagen at Arterial Blood Flow Conditions, 1976

Blood lipids

The Insulin Resistance Syndrome in Smokers Is Related to Smoking Habits, 1946

Blood pressure

Evaluation of Two Insulin Assays in Insulin Resistance Syndrome (Syndrome X), 1430

Blood viscosity

Influence of HDL Subfractions on Erythrocyte Aggregation in Hypercholesterolemic Men, 361

Body fat distribution

Human HDL Cholesterol Levels Are Determined by ApoA-I Fractional Catabolic Rate, Which Correlates Inversely With Estimates of HDL Particle Size: Effects of Gender, Hepatic

and Lipoprotein Lipases, Triglyceride and Insulin Levels, and Body Fat Distribution, 707

Bypass grafts

Microvascular Endothelial Cell Sodding of 1-mm Expanded Polytetrafluoroethylene Vascular Grafts, 25

C

¹³C-NMR spectroscopy

¹³C-NMR Spectroscopy of Human Atherosclerotic Lesions: Relation Between Fatty Acid Saturation, Cholesteryl Ester Content, and Luminal Obstruction, 1951

Short-term Consumption of a Low-Fat Diet Beneficially Affects Plasma Lipid Concentrations Only When Accompanied by Weight Loss: Hypercholesterolemia, Low-Fat Diet, and Plasma Lipids, 1751

C-reactive protein

Rat C-Reactive Protein Causes a Charge Modification of LDL and Stimulates Its Degradation by Macrophages, 282

CAD

DNA Variants at the LPL Gene Locus Associate With Angiographically Defined Severity of Atherosclerosis and Serum Lipoprotein Levels in a Welsh Population, 1090

Calcification

Osteopontin Is Synthesized by Macrophage, Smooth Muscle, and Endothelial Cells in Primary and Restenotic Human Coronary Atherosclerotic Plaques, 1648

Pathology of Atheromatous Lesions in Inbred and Genetically Engineered Mice: Genetic Determination of Arterial Calcification, 1480

Calcium influx

Alterations in Basal and Serotonin-Stimulated Calcium Permeability and Vasoconstriction in Atherosclerotic Aorta, 1854

Caldesmon

Changes in the Caldesmon Isoform Content and Intimal Thickening in the Rabbit Carotid Artery Induced by a Silicone Elastomer Collar, 1837

cAMP

Essential Differences in Cholesteryl Ester Metabolism Between Human Monocyte-Derived and J774 Macrophages: Evidence Against the Presence of Hormone-Sensitive Lipase in Human Macrophages, 443

Canola oil

Effect of Dietary Fat Selection on Plasma Cholesterol Synthesis in Older, Moderately Hypercholesterolemic Humans, 542

Rice Bran Oil Consumption and Plasma Lipid Levels in Moderately Hypercholesterolemic Humans, 549

Carboxylesterase

Purification, Cloning, and Expression of a Human Enzyme With Acyl Coenzyme A: Cholesterol Acyltransferase Activity, Which Is Identical to Liver Carboxylesterase, 1346

Cardiovascular disease

Factor VII Coagulant Activity and Cholesterol Changes in Premenopausal Women Consuming a Long-term Cholesterol-Lowering Diet, 1284

Ultrasonographic Manifestations of Common Carotid Atherosclerosis in Elderly Eastern Finnish Men: Prevalence and Associations With Cardiovascular Diseases and Risk Factors, 1631

Ultrasound Evaluation of Atherosclerotic Manifestations in the Carotid Artery in High-Risk Hypertensive Patients, 1297

Cardiovascular risk factors

Effects of Age, Lipoproteins, and Hemostatic Parameters on the Role of Homocyst(e)inemia as a Cardiovascular Risk Factor in Men, 460

Carotid arteries

Correlation of Ultrasound-Measured Common Carotid Artery Stiffness With Pathological Findings, 479

Increased Intima-Media Thickness of the Common Carotid Artery in Hypercholesterolemic Children, 1075

Carotid artery diseases

Associations of Lipoprotein Cholesterols, Apolipoproteins A-I and B, and Triglycerides With Carotid Atherosclerosis and Coronary Heart Disease: The Atherosclerosis Risk in Communities (ARIC) Study, 1098

Carotid atherosclerosis

Apolipoprotein(a) Phenotypes Predict the Risk for Carotid Atherosclerosis in Patients With End-Stage Renal Disease, 1405

Associations of Allelic Differences at the A-I/C-III/A-IV Gene Cluster With Carotid Artery Intima-Media Thickness and Plasma Lipid Transport in Hypercholesterolemic-Hypertriglyceridemic Humans, 874

Body Iron Stores and Presence of Carotid Atherosclerosis: Results From the Bruneck Study, 1625

Common Carotid Intima-Media Thickness and Lower Extremity Arterial Atherosclerosis: The Rotterdam Study, 1885

Long-term Induction and Regression of Diet-Induced Atherosclerotic Lesions in Rhesus Monkeys: II. Morphometric Evaluation of Lesions by Light Microscopy in Coronary and Carotid Arteries, 2007

Carotid endarterectomy

LDL Oxidation in Patients With Severe Carotid Atherosclerosis: A Study of In Vitro and In Vivo Oxidation Markers, 1892

Carotid wall thickness

Early Changes of the Arterial Carotid Wall in Uncomplicated Primary Hypertensive Patients: Study by Ultrasound High-Resolution B-Mode Imaging, 1290

Case-control study

ApoE Polymorphism and Predisposition to Coronary Heart Disease in Youths of Different European Populations: The EARS Study, 1617

Casein

Cholesterol-Fed and Casein-Fed Rabbit Models of Atherosclerosis: Part 1: Differing Lesion Area and Volume Despite Equal Plasma Cholesterol Levels, 95

Cholesterol-Fed and Casein-Fed Rabbit Models of Atherosclerosis: Part 2: Differing Morphological Severity of Atherogenesis Despite Matched Plasma Cholesterol Levels, 105

Catabolism

Binding and Degradation of Lipoprotein(a) and LDL by Primary Cultures of Human Hepatocytes: Comparison With Cultured Human Monocyte-Macrophages and Fibroblasts, 770

CD36

Platelet Activation Results in a Redistribution of Glycoprotein IV (CD36), 1193

Cell cycle

Increased Radiosensitivity and Radioresistant DNA Synthesis in Cultured Fibroblasts From Patients With Coronary Atherosclerosis, 1761

Cell differentiation

Structural Organization of Reconstituted Human Arterial Smooth Muscle Tissue, 644

Cell division

Lipoproteins Are Major and Primary Mitogens and Growth Promoters for Human Arterial Smooth Muscle Cells and Lung Fibroblasts In Vitro, 288

Cell necrosis

Structural Organization of Reconstituted Human Arterial Smooth Muscle Tissue, 644

Cell surface receptors

Antiproliferative Activity to Vascular Smooth Muscle Cells and Receptor Binding of Heparin-Mimicking Polyaromatic Anionic Compounds, 1992

Cell survival

Structural Organization of Reconstituted Human Arterial Smooth Muscle Tissue, 644

Cell transplantation

Microvascular Endothelial Cell Sodding of 1-mm Expanded Polytetrafluoroethylene Vascular Grafts, 25

Cellular lipid accumulation

Low-Density Lipoproteins of the Postprandial State Induce Cellular Cholesteryl Ester Accumulation in Macrophages, 1799

Cellular proliferation

Inhibition of PDGF Receptor Binding and PDGF-Stimulated Biological Activity In Vitro and of Intimal Lesion Formation

In Vivo by 2-Bromomethyl-5-Chlorobenzene Sulfonylphthalimide, 1047

Centenarians

Aging and Genetic Variation of Plasma Apolipoproteins: Relative Loss of the Apolipoprotein E4 Phenotype in Centenarians, 1084

Cerebral infarction

Fluorogenic Assay of Activated Factor VII: Plasma Factor VIIa Levels in Relation to Arterial Cardiovascular Diseases in Japanese, 265

CETP

A Cell Culture System for Screening Human Serum for Ability to Promote Cellular Cholesterol Efflux: Relations Between Serum Components and Efflux, Esterification, and Transfer, 1056

Chandler loop

Plasminogen Activator Inhibitor-1 Released From Activated Platelets Plays a Key Role in Thrombolysis Resistance: Studies With Thrombi Generated in the Chandler Loop, 1452

Chemokines

Oxidized LDL Induces Monocytic Cell Expression of Interleukin-8, a Chemokine With T-Lymphocyte Chemotactic Activity, 47

Chemotaxis

Protein Tyrosine Kinase Inhibitors Inhibit Chemotaxis of Vascular Smooth Muscle Cells, 973

Children

Association of Apolipoprotein(a) Phenotypes in Children With Family History of Premature Coronary Artery Disease, 1609
Increased Intima-Media Thickness of the Common Carotid Artery in Hypercholesterolemic Children, 1075

Cholesterol

A Dose-Response Study of the Effects of Dietary Cholesterol on Fasting and Postprandial Lipid and Lipoprotein Metabolism in Healthy Young Men, 576

ACAT Inhibition Decreases LDL Cholesterol in Rabbits Fed a Cholesterol-Free Diet: Marked Changes in LDL Cholesterol Without Changes in LDL Receptor mRNA Abundance, 598
Alterations in Basal and Serotonin-Stimulated Calcium Permeability and Vasoconstriction in Atherosclerotic Aorta, 1854
Apolipoprotein B and a Second Major Gene Locus Contribute to Phenotypic Variation of Spontaneous Hypercholesterolemia in Pigs, 409

Cholesterol-Fed and Casein-Fed Rabbit Models of Atherosclerosis: Part 1: Differing Lesion Area and Volume Despite Equal Plasma Cholesterol Levels, 95

Cholesterol-Fed and Casein-Fed Rabbit Models of Atherosclerosis: Part 2: Differing Morphological Severity of Atherogenesis Despite Matched Plasma Cholesterol Levels, 105

Chronic Inhibition of Nitric Oxide Production Accelerates Neointimal Formation and Impairs Endothelial Function in Hypercholesterolemic Rabbits, 753

Correlation of Vitamin K-Dependent Clotting Factors With Cholesterol and Triglycerides in Healthy Young Adults, 1737

Development of the Atherosclerotic Core Region: Chemical and Ultrastructural Analysis of Microdissected Atherosclerotic Lesions From Human Aorta, 1305

Effect of Dietary Fat Selection on Plasma Cholesterol Synthesis in Older, Moderately Hypercholesterolemic Humans, 542

Effect of Human ApoE4 on the Clearance of Chylomicron-like Lipid Emulsions and Atherogenesis in Transgenic Mice, 1542

Hypercholesterolemic Effect of Dietary Cholesterol in Diets Enriched in Polyunsaturated and Saturated Fat: Dietary Cholesterol, Fat Saturation, and Plasma Lipids, 168

Impact of Myristic Acid Versus Palmitic Acid on Serum Lipid and Lipoprotein Levels in Healthy Women and Men, 567

Macrophage Foam Cell Lipoprotein(a)/Apoprotein(a) Receptor: Cell-Surface Localization, Dependence of Induction on New Protein Synthesis, and Ligand Specificity, 1337

Potent Cholesterol-Lowering Effect by Human Granulocyte-Macrophage Colony-Stimulating Factor in Rabbits: Possible Implications of Enhancement of Macrophage Functions and an Increase in mRNA for VLDL Receptor, 1534

Recombinant Human Macrophage Colony-Stimulating Factor Reduces Plasma Cholesterol and Carrageenan Granuloma Foam Cell Formation in Watanabe Heritable Hyperlipidemic Rabbits, 70

Regulation of Serum Cholesterol Level in Middle-Aged and Elderly Men: Relation of Cholesterol Absorption and Synthesis to Lipoprotein Metabolism, 694

Rice Bran Oil Consumption and Plasma Lipid Levels in Moderately Hypercholesterolemic Humans, 549

Serum Ferritin, Sex Hormones, and Cardiovascular Risk Factors in Healthy Women, 857

Short-term Consumption of a Low-Fat Diet Beneficially Affects Plasma Lipid Concentrations Only When Accompanied by Weight Loss, 1751

Susceptibility to Diet-Induced Atherosclerosis in Transgenic Mice Expressing a Dysfunctional Human Apolipoprotein E(Arg 112,Cys142), 1873

The Effect of Three Serum Basic Proteins on the Mass of Lipids in Normal and HyperapoB Fibroblasts, 1

The LPL Gene in Individuals With Familial Combined Hyperlipidemia and Decreased LPL Activity, 869

Cholesterol absorption

Regulation of Serum Cholesterol Level in Middle-Aged and Elderly Men: Relation of Cholesterol Absorption and Synthesis to Lipoprotein Metabolism, 694

Cholesterol efflux

A Cell Culture System for Screening Human Serum for Ability to Promote Cellular Cholesterol Efflux: Relations Between Serum Components and Efflux, Esterification, and Transfer, 1056

Species Difference in Cholesteryl Ester Cycle and HDL-Induced Cholesterol Efflux From Macrophage Foam Cells, 1860

Cholesterol esters

ApoB Metabolism in Familial Hypercholesterolemia: Inconsistencies With the LDL Receptor Paradigm, 501

The Effect of Three Serum Basic Proteins on the Mass of Lipids in Normal and HyperapoB Fibroblasts, 1

Cholesterol feeding

Cyclosporin Suppresses Transplant Arteriosclerosis in the Aorta-Allografted, Cholesterol-Clamped Rabbit: Suppression Preceded by Decrease in Arterial Lipoprotein Permeability, 944

Cholesterol synthesis

Regulation of Serum Cholesterol Level in Middle-Aged and Elderly Men: Relation of Cholesterol Absorption and Synthesis to Lipoprotein Metabolism, 694

Cholesteryl ester

Inhibition of Hepatic ACAT Decreases ApoB Secretion in Miniature Pigs Fed a Cholesterol-Free Diet, 1498

Cholesteryl ester acceptors

Preferential Cholesteryl Ester Acceptors Among the LDL Subspecies of Subjects With Familial Hypercholesterolemia, 679

Cholesteryl ester cycle

Species Difference in Cholesteryl Ester Cycle and HDL-Induced Cholesterol Efflux From Macrophage Foam Cells, 1860

Cholesteryl ester exchange

Preferential Cholesteryl Ester Acceptors Among the LDL Subspecies of Subjects With Familial Hypercholesterolemia, 679

Cholesteryl ester mass transfer

Preferential Cholesteryl Ester Acceptors Among the LDL Subspecies of Subjects With Familial Hypercholesterolemia, 679

Cholesteryl ester storage

Purification, Cloning, and Expression of a Human Enzyme With Acyl Coenzyme A: Cholesterol Acyltransferase Activity, Which Is Identical to Liver Carboxylesterase, 1346

Cholesteryl ester transfer

Intraperitoneal Insulin Therapy Corrects Abnormalities in Cholesteryl Ester Transfer and Lipoprotein Lipase Activities in Insulin-Dependent Diabetes Mellitus, 1933

Cholesteryl ester transfer protein

A Dose-Response Study of the Effects of Dietary Cholesterol on Fasting and Postprandial Lipid and Lipoprotein Metabolism in Healthy Young Men, 576

- A New In Vitro Method for the Simultaneous Evaluation of Cholesteryl Ester Exchange and Mass Transfer Between HDL and ApoB-Containing Lipoprotein Subspecies: Identification of Preferential Cholesteryl Ester Acceptors in Human Plasma, 199
- Determinants of LDL Subfraction Distribution and Concentrations in Young Normolipidemic Subjects, 902

Hyperhomocysteinemia

- Treatment of Mild Hyperhomocysteinemia in Vascular Disease Patients, 465

Hyperinsulinemia

- Effect of Insulin Resistance, ApoE2 Allele, and Smoking on Combined Hyperlipidemia, 1576

Hyperinsulinism

Intraperitoneal Insulin Therapy Corrects Abnormalities in Cholesteryl Ester Transfer and Lipoprotein Lipase Activities in Insulin-Dependent Diabetes Mellitus, 1933

Hyperlipidemia

Apolipoprotein B and a Second Major Gene Locus Contribute to Phenotypic Variation of Spontaneous Hypercholesterolemia in Pigs, 409

Associations of Allelic Differences at the A-I/C-III/A-IV Gene Cluster With Carotid Artery Intima-Media Thickness and Plasma Lipid Transport in Hypercholesterolemic-Hypertriglyceridemic Humans, 874

Atherosclerotic Plaque Evolution in the Descending Thoracic Aorta in Familial Hypercholesterolemic Patients: A Transesophageal Echo Study, 1723

Hyperlipidemia Accelerates Allograft Arteriosclerosis (Chronic Rejection) in the Rat, 2032

Susceptibility to Diet-Induced Atherosclerosis in Transgenic Mice Expressing a Dysfunctional Human Apolipoprotein E(Arg 112,Cys142), 1873

The Effect of Three Serum Basic Proteins on the Mass of Lipids in Normal and HyperapoB Fibroblasts, 1

Hyperplasia

Microvascular Endothelial Cell Sodding of 1-mm Expanded Polytetrafluoroethylene Vascular Grafts, 25

Hypertension

Hyperinsulinemia, Risk Factors, and Coronary Heart Disease: The Zutphen Elderly Study, 1641

Lipoprotein Abnormalities in Non-Insulin-Dependent Diabetic Patients With Impaired Extrahepatic Insulin Sensitivity, Hypertension, and Microalbuminuria, 911

Hypertriglyceridemia

A New In Vitro Method for the Simultaneous Evaluation of Cholesteryl Ester Exchange and Mass Transfer Between HDL and ApoB-Containing Lipoprotein Subspecies: Identification of Preferential Cholesteryl Ester Acceptors in Human Plasma, 199

Hyperlipidemia Accelerates Allograft Arteriosclerosis (Chronic Rejection) in the Rat, 2032

I

Image analysis

ApoE-Deficient Mice Are a Model of Lipoprotein Oxidation in Atherogenesis: Demonstration of Oxidation-Specific Epitopes in Lesions and High Titers of Autoantibodies to Malondialdehyde-Lysine in Serum, 605

Immunity

Rabbit and Human Atherosclerotic Lesions Contain IgG That Recognizes Epitopes of Oxidized LDL, 32

Immunofluorescence

Distribution of Subclasses of HDL Containing ApoA-I Without ApoA-II (LpA-I) in Normolipidemic Men and Women, 1594

Immunoblotting

Familial Hypercholesterolemia in China: Identification of Mutations in the LDL-Receptor Gene That Result in a Receptor-Negative Phenotype, 85

Immunogenetics

Familial and Diet-Induced Hypercholesterolemia in Swine: Lipid, ApoB, and ApoA-I Concentrations and Distributions in Plasma and Lipoprotein Subfractions, 923

Immunocytochemistry

ApoE-Deficient Mice Are a Model of Lipoprotein Oxidation in Atherogenesis: Demonstration of Oxidation-Specific Epitopes in Lesions and High Titers of Autoantibodies to Malondialdehyde-Lysine in Serum, 605

Lipoprotein Lipase Is Produced by Cardiac Myocytes Rather Than Interstitial Cells in Human Myocardium, 1445

Immunoglobulins

ApoE-Deficient Mice Are a Model of Lipoprotein Oxidation in Atherogenesis: Demonstration of Oxidation-Specific Epitopes in Lesions and High Titers of Autoantibodies to Malondialdehyde-Lysine in Serum, 605

Rabbit and Human Atherosclerotic Lesions Contain IgG That Recognizes Epitopes of Oxidized LDL, 32

Immunohistochemical analysis

Cell Compositions of Coronary and Aortic Atherosclerotic Lesions in WHHL Rabbits Differ: An Immunohistochemical Study, 931

Immunohistochemical localization

Structural Relation Between HDL-Binding Proteins in Porcine Liver, 305

Immunohistochemistry

Expression of LDL Receptor-Related Protein/ α_2 -Macroglobulin Receptor in Human Normal and Atherosclerotic Arteries, 1438

Increased Expression In Vivo of VCAM-1 and E-Selectin by the Aortic Endothelium of Normolipemic and Hyperlipemic Diabetic Rabbits, 760

Lipoprotein Lipase Is Produced by Cardiac Myocytes Rather Than Interstitial Cells in Human Myocardium, 1445

Immunology

Diversity of T-Cell Antigen Receptor V β Gene Utilization in Advanced Human Atheroma, 1210

Immunoreactive mass

Molecular Characterization of Human Hepatic Lipase Deficiency: In Vitro Expression of Two Naturally Occurring Mutations, 381

Immunosorbents

Effects of Lovastatin on ApoA- and ApoB-Containing Lipoproteins: Families in a Subpopulation of Patients Participating in the Monitored Atherosclerosis Regression Study (MARS), 1906

Immunosuppression

Apolipoprotein(a) Phenotype-Associated Decrease in Lipoprotein(a) Plasma Concentrations After Renal Transplantation, 1399

Immunofluorescence

Effects of Lovastatin on ApoA- and ApoB-Containing Lipoproteins: Families in a Subpopulation of Patients Participating in the Monitored Atherosclerosis Regression Study (MARS), 1906

In Memoriam

Alayne Van Dyck, 838

Jacky Larue, 1686

In situ hybridization

Expression of LDL Receptor-Related Protein/ α_2 -Macroglobulin Receptor in Human Normal and Atherosclerotic Arteries, 1438

Lipoprotein Lipase Is Produced by Cardiac Myocytes Rather Than Interstitial Cells in Human Myocardium, 1445

Indomethacin

Effects of Candidate Autocrine and Paracrine Mediators on Growth Responses in Isolated Rat Arteries, 420

Inflammation

Rabbit and Human Atherosclerotic Lesions Contain IgG That Recognizes Epitopes of Oxidized LDL, 32

Insulin

Evaluation of Two Insulin Assays in Insulin Resistance Syndrome (Syndrome X), 1430

High Fibrinogen and Plasminogen Activator Inhibitor Activity in Growth Hormone-Deficient Adults, 434

Human HDL Cholesterol Levels Are Determined by ApoA-I Fractional Catabolic Rate, Which Correlates Inversely With Estimates of HDL Particle Size: Effects of Gender, Hepatic and Lipoprotein Lipases, Triglyceride and Insulin Levels, and Body Fat Distribution, 707

Hyperinsulinemia Predicts Multiple Atherogenic Changes in Lipoproteins in Elderly Subjects, 518

Hyperinsulinemia, Risk Factors, and Coronary Heart Disease: The Zutphen Elderly Study, 1641

Insulin Sensitivity Is Not an Independent Determinant of Plasma Plasminogen Activator Inhibitor-1 Activity, 1264

Relation of Aortic Stiffness to Factors Modifying the Risk of Atherosclerosis in Healthy People, 386

Insulin-dependent diabetes mellitus

Intraperitoneal Insulin Therapy Corrects Abnormalities in Cholesteryl Ester Transfer and Lipoprotein Lipase Activities in Insulin-Dependent Diabetes Mellitus, 1933

Insulin resistance

Relations of Plasma TG and HDL-C Concentrations to Body Composition and Plasma Insulin Levels Are Altered in Men With Small LDL Particles, 1121

The Insulin Resistance Syndrome in Smokers Is Related to Smoking Habits, 1946

Insulin resistance syndrome

Multivariate Analysis of the Insulin Resistance Syndrome in Women, 1940

The Insulin Resistance Syndrome in Smokers Is Related to Smoking Habits, 1946

Insulin sensitivity

Insulin Sensitivity Is Not an Independent Determinant of Plasma Plasminogen Activator Inhibitor-1 Activity, 1264

Insulin suppression test

Resistance to Insulin-Stimulated Glucose Uptake and Dyslipidemia in Asian Indians, 917

Insulinlike growth factor I

Tamoxifen and Estrogen Lower Circulating Lipoprotein(a) Concentrations in Healthy Postmenopausal Women, 1586

Interferons

Effect of Endotoxin and Cytokines on Lipoprotein Lipase Activity in Mice, 1866

Interleukin-1

Effects of Candidate Autocrine and Paracrine Mediators on Growth Responses in Isolated Rat Arteries, 420

Interleukin-1 Upregulates Decorin Production by Arterial Smooth Muscle Cells, 1032

Oxidized LDL Induces Monocytic Cell Expression of Interleukin-8, a Chemokine With T-Lymphocyte Chemotactic Activity, 47

Polar Expression of Tissue Factor in Human Umbilical Vein Endothelial Cells, 1815

Interleukin-8

Oxidized LDL Enhances Lipopolysaccharide-Induced Tissue Factor Expression in Human Adherent Monocytes, 790

Oxidized LDL Induces Monocytic Cell Expression of Interleukin-8, a Chemokine With T-Lymphocyte Chemotactic Activity, 47

Interleukins

Effect of Endotoxin and Cytokines on Lipoprotein Lipase Activity in Mice, 1866

Intermediate-density lipoprotein

Plasma Lipoproteins in Familial Dysbetalipoproteinemia Associated With Apolipoproteins E2(Arg158→Cys), E3-Leiden, and E2(Lys146→Gln), and Effects of Treatment With Simvastatin, 1705

Intima

An Ultrastructural Study of Lipoprotein Accumulation in Cardiac Valves of the Rabbit, 1151

Intima-media thickness

Arterial Imaging and Atherosclerosis Reversal, 177

Elastic Modulus of the Radial Artery Wall Material Is Not Increased in Patients With Essential Hypertension, 1223

Ultrasound-Determined Intima-Media Thickness and Atherosclerosis: Direct and Indirect Validation, 261

Ultrasound Evaluation of Atherosclerotic Manifestations in the Carotid Artery in High-Risk Hypertensive Patients, 1297

Intimal hyperplasia

L-Arginine Improves Endothelium-Dependent Vasorelaxation and Reduces Intimal Hyperplasia After Balloon Angioplasty, 938

Intimal smooth muscle cells

Response of Atherosclerotic Intimal Smooth Muscle Cells to Epidermal Growth Factor In Vitro, 1364

Intimal thickening

Antiproliferative Effect of Desferrioxamine on Vascular Smooth Muscle Cells In Vitro and In Vivo, 299

Changes in the Caldesmon Isoform Content and Intimal Thickening in the Rabbit Carotid Artery Induced by a Silicone Elastomer Collar, 1837

Probucol Reduces the Cellularity of Aortic Intimal Thickening at Anastomotic Regions Adjacent to Prosthetic Grafts in Cholesterol-Fed Rabbits, 162

Intracellular calcium

Mechanically Induced Calcium Mobilization in Cultured Endothelial Cells Is Dependent on Actin and Phospholipase, 2000

Intraperitoneal insulin delivery

Intraperitoneal Insulin Therapy Corrects Abnormalities in Cholesteryl Ester Transfer and Lipoprotein Lipase Activities in Insulin-Dependent Diabetes Mellitus, 1933

Ionized calcium

Platelet Calcium Homeostasis Is Abnormal in Patients With Severe Arteriosclerosis, 1420

Iron

Antiproliferative Effect of Desferrioxamine on Vascular Smooth Muscle Cells In Vitro and In Vivo, 299

Body Iron Stores and Presence of Carotid Atherosclerosis: Results From the Bruneck Study, 1625

Ischemic heart disease

Factor VII Coagulant Activity and Antigen Levels in Healthy Men Are Determined by Interaction Between Factor VII Genotype and Plasma Triglyceride Concentration, 193

Isoform size

Lp(a) Concentration and Apo(a) Isoform Size: Relation to the Presence of Coronary Artery Disease in Familial Hypercholesterolemia, 1561

J**J774 macrophages**

Essential Differences in Cholesteryl Ester Metabolism Between Human Monocyte-Derived and J774 Macrophages: Evidence Against the Presence of Hormone-Sensitive Lipase in Human Macrophages, 443

K**7-Ketocholesterol**

Cytotoxicity of Oxidized LDL to Porcine Aortic Smooth Muscle Cells Is Associated With the Oxysterols 7-Ketocholesterol and 7-Hydroxycholesterol, 1177

Kringle

Macrophage Foam Cell Lipoprotein(a)/Apoprotein(a) Receptor: Cell-Surface Localization, Dependence of Induction on New Protein Synthesis, and Ligand Specificity, 1337

L**L-selectin**

Polymorphonuclear Leukocyte-Induced Vasoconstriction and Endothelial Dysfunction: Role of Selectins, 1509

LCAT

A Cell Culture System for Screening Human Serum for Ability to Promote Cellular Cholesterol Efflux: Relations Between Serum Components and Efflux, Esterification, and Transfer, 1056

LDL

A Dose-Response Study of the Effects of Dietary Cholesterol on Fasting and Postprandial Lipid and Lipoprotein Metabolism in Healthy Young Men, 576

Aortic Permeability to LDL During Estrogen Therapy: A Study in Normocholesterolemic Rabbits, 243

ApoA-IV Phenotype Affects Diet-Induced Plasma LDL Cholesterol Lowering, 884

ApoB Metabolism in Familial Hypercholesterolemia: Inconsistencies With the LDL Receptor Paradigm, 501

Apolipoprotein B and a Second Major Gene Locus Contribute to Phenotypic Variation of Spontaneous Hypercholesterolemia in Pigs, 409

Characterization of Sites With Elevated LDL Permeability at Intercostal, Celiac, and Iliac Branches of the Normal Rabbit Aorta, 313

Combined Effects of Lipid Transfers and Lipolysis on Gradient Gel Patterns of Human Plasma LDL, 1327

Comparative Study on the Effect of Low-Dose Vitamin E and Probucol on the Susceptibility of LDL to Oxidation and the Progression of Atherosclerosis in Watanabe Heritable Hyperlipidemic Rabbits, 1386

Cyclosporin A Has Divergent Effects on Plasma LDL Cholesterol (LDL-C) and Lipoprotein(a) [Lp(a)] Levels in Renal

- Transplant Recipients: Evidence for Renal Involvement in the Maintenance of LDL-C and the Elevation of Lp(a) Concentrations in Hemodialysis, 1393

Risk factors for coronary heart disease

The Association of Hypotestosteronemia With Coronary Artery Disease in Men, 701

Risk stratification

Intraindividual Variability of Fibrinogen Levels and Cardiovascular Risk Profile, 1928

S**Saturated fat**

Hypercholesterolemic Effect of Dietary Cholesterol in Diets Enriched in Polyunsaturated and Saturated Fat: Dietary Cholesterol, Fat Saturation, and Plasma Lipids, 168

Rice Bran Oil Consumption and Plasma Lipid Levels in Moderately Hypercholesterolemic Humans, 549

Saturated fatty acids

Impact of Myristic Acid Versus Palmitic Acid on Serum Lipid and Lipoprotein Levels in Healthy Women and Men, 567

Scavenger receptor

Differential Expression of Scavenger Receptor Isoforms During Monocyte-Macrophage Differentiation and Foam Cell Formation, 798

Septic shock

Role of the Lipopolysaccharide (LPS)-Binding Protein/CD14 Pathway in LPS Induction of Tissue Factor Expression in Monocytic Cells, 1202

Ser⁴⁴⁷Ter mutation

DNA Variants at the LPL Gene Locus Associate With Angiographically Defined Severity of Atherosclerosis and Serum Lipoprotein Levels in a Welsh Population, 1090

Serine proteases

Polymorphonuclear Leukocytes Enhance Release of Growth Factors by Cultured Endothelial Cells, 125

Serotonin

Enhanced Coronary Vasoconstrictive Response to Serotonin Subsides After Removal of Dietary Cholesterol in Atherosclerotic Monkeys, 951

Serum albumin

Oxidation of Heparin-Isolated LDL by Hemin: The Effect of Serum Components, 1966

Serum amyloid A subfamilies

Serum Amyloid A Protein Family: Differential Induction by Oxidized Lipids in Mouse Strains, 1475

Serum apolipoproteins

Aging and Genetic Variation of Plasma Apolipoproteins: Relative Loss of the Apolipoprotein E4 Phenotype in Centenarians, 1084

Serum cholesterol

Aging and Genetic Variation of Plasma Apolipoproteins: Relative Loss of the Apolipoprotein E4 Phenotype in Centenarians, 1084

Serum induction

Regulation of Tissue Factor Gene Expression in Epithelial Cells: Induction by Serum and Phorbol 12-Myristate 13-Acetate, 807

Serum lipids

Hyperinsulinemia, Risk Factors, and Coronary Heart Disease: The Zutphen Elderly Study, 1641

Serum triglycerides

Effect of Endotoxin and Cytokines on Lipoprotein Lipase Activity in Mice, 1866

Sex hormones

Lack of Association Between Sex Hormones and Lp(a) Concentrations in American and Finnish Men, 19

Shear rate

Influence of HDL Subfractions on Erythrocyte Aggregation in Hypercholesterolemic Men, 361

Thrombin Plays a Key Role in Late Platelet Thrombus Growth and/or Stability: Effect of a Specific Thrombin Inhibitor on Thrombogenesis Induced by Aortic Subendothelium Exposed to Flowing Rabbit Blood, 1466

Shear stress

Effect of Flow on the Process of Endothelial Cell Division, 636

Influence of HDL Subfractions on Erythrocyte Aggregation in Hypercholesterolemic Men, 361

Sialyl Lewis^x oligosaccharide

Polymorphonuclear Leukocyte-Induced Vasocontraction and Endothelial Dysfunction: Role of Selectins, 1509

Simvastatin

Plasma Lipoproteins in Familial Dysbetalipoproteinemia Associated With Apolipoproteins E2(Arg158→Cys), E3-Leiden, and E2(Lys146→Gln), and Effects of Treatment With Simvastatin, 1705

Single-strand conformation length polymorphisms

The LPL Gene in Individuals With Familial Combined Hyperlipidemia and Decreased LPL Activity, 869

Single-strand conformational polymorphism

Effect on Plasma Lipid Levels of Different Classes of Mutations in the Low-Density Lipoprotein Receptor Gene in Patients With Familial Hypercholesterolemia, 1717

Site-directed mutagenesis

Familial Hypercholesterolemia in China: Identification of Mutations in the LDL-Receptor Gene That Result in a Receptor-Negative Phenotype, 85

Molecular Characterization of Human Hepatic Lipase Deficiency: In Vitro Expression of Two Naturally Occurring Mutations, 381

Smoking

Effect of Insulin Resistance, ApoE2 Allele, and Smoking on Combined Hyperlipidemia, 1576

Fibrinogen and Factor VII in the Prediction of Coronary Risk: Results From the PROCAM Study in Healthy Men, 54

Plasma Essential Fatty Acids, Cigarette Smoking, and Dietary Antioxidants in Peripheral Arterial Disease: A Population-Based Case-Control Study, 471

Regulation of Plasma HDL Cholesterol and Subfraction Distribution by Genetic and Environmental Factors: Associations

Between the *TaqI* B RFLP in the CETP Gene and Smoking and Obesity, 336

Smooth muscle

Changes in the Caldesmon Isoform Content and Intimal Thickening in the Rabbit Carotid Artery Induced by a Silicone Elastomer Collar, 1837

Neointima Formation After Vascular Stent Implantation: Spatial and Chronological Distribution of Smooth Muscle Cell Proliferation and Phenotypic Modulation, 1846

Smooth muscle cells

Antithrombin III Inhibits Thrombin-Induced Proliferation in Human Arterial Smooth Muscle Cells, 254

Cell Compositions of Coronary and Aortic Atherosclerotic Lesions in WHHL Rabbits Differ: An Immunohistochemical Study, 931

Cell Proliferation After Balloon Injury of Iliac Arteries in the Cholesterol-Fed New Zealand White Rabbit, 727

Cytotoxicity of Oxidized LDL to Porcine Aortic Smooth Muscle Cells Is Associated With the Oxysterols 7-Ketocholesterol and 7-Hydroxycholesterol, 1177

Interleukin-1 Upregulates Decorin Production by Arterial Smooth Muscle Cells, 1032

Regulation of Cyclooxygenase-2 Expression in Aortic Smooth Muscle Cells, 1021

Stimulation of PAI-1 Expression in Endothelial Cells by Cultured Vascular Smooth Muscle Cells, 815

Tissue-Type Plasminogen Activator and Its Inhibitor in Rat Aorta: Effect of Endotoxin, 1459

Smooth muscle proliferation

Rat Aortic Smooth Muscle Cells Isolated From Different Layers and at Different Times After Endothelial Denudation Show Distinct Biological Features In Vitro, 982

Sodium intake

Relation of Aortic Stiffness to Factors Modifying the Risk of Atherosclerosis in Healthy People, 386

Steady-state plasma glucose

Resistance to Insulin-Stimulated Glucose Uptake and Dyslipidemia in Asian Indians, 917

Stearic acid

Dietary Fat Induces Changes in Factor VII Coagulant Activity Through Effects on Plasma Free Stearic Acid Concentration, 214

Stenosis

A Perfusion Chamber Developed to Investigate Thrombus Formation and Shear Profiles in Flowing Native Human Blood at the Apex of Well-Defined Stenoses, 1984

Stent

Neointima Formation After Vascular Stent Implantation: Spatial and Chronological Distribution of Smooth Muscle Cell Proliferation and Phenotypic Modulation, 1846

Steric hindrance

Binding and Degradation of Lipoprotein(a) and LDL by Primary Cultures of Human Hepatocytes: Comparison With Cultured Human Monocyte-Macrophages and Fibroblasts, 770

Steroid hormone receptors

Opposite In Vitro and In Vivo Regulation of Hepatic Apolipoprotein A-I Gene Expression by Retinoic Acid: Absence of Effects on Apolipoprotein A-II Gene Expression, 1657

Stress fibers

Protein Tyrosine Kinase Inhibitors Inhibit Chemotaxis of Vascular Smooth Muscle Cells, 973

Stroke

Abnormally High Circulation Levels of Tissue Plasminogen Activator and Plasminogen Activator Inhibitor-1 in Patients With a History of Ischemic Stroke, 1741

Stromelysin-1

Identification of Matrix Metalloproteinases 3 (Stromelysin-1) and 9 (Gelatinase B) in Abdominal Aortic Aneurysm, 1315

Superoxide anion

Lysophosphatidylcholine Increases Vascular Superoxide Anion Production via Protein Kinase C Activation, 1007

Swine

Familial and Diet-Induced Hypercholesterolemia in Swine: Lipid, ApoB, and ApoA-I Concentrations and Distributions in Plasma and Lipoprotein Subfractions, 923

Synthesis

Effect of Dietary Fat Selection on Plasma Cholesterol Synthesis in Older, Moderately Hypercholesterolemic Humans, 542

T**T lymphocyte**

Diversity of T-Cell Antigen Receptor V β Gene Utilization in Advanced Human Atheroma, 1210

T lymphocytes

Oxidized LDL Induces Monocytic Cell Expression of Interleukin-8, a Chemokine With T-Lymphocyte Chemotactic Activity, 47

Tamoxifen

Tamoxifen and Estrogen Lower Circulating Lipoprotein(a) Concentrations in Healthy Postmenopausal Women, 1586

Testosterone

The Association of Hypotestosteronemia With Coronary Artery Disease in Men, 701

TGF- β

Cytomegalovirus Infection Enhances mRNA Expression of Platelet-Derived Growth Factor-BB and Transforming Growth Factor- β in Rat Aortic Allografts: Possible Mechanism for Cytomegalovirus-Enhanced Graft Arteriosclerosis, 2043

Thrombin

Antiproliferative Activity to Vascular Smooth Muscle Cells and Receptor Binding of Heparin-Mimicking Polyaromatic Anionic Compounds, 1992

Antithrombin III Inhibits Thrombin-Induced Proliferation in Human Arterial Smooth Muscle Cells, 254

Morphological Alterations in Endothelial Cells Associated With the Release of von Willebrand Factor After Thrombin Generation In Vivo, 990

Platelet Activation Results in a Redistribution of Glycoprotein IV (CD36), 1193

Thrombin inhibitors

Thrombin Plays a Key Role in Late Platelet Thrombus Growth and/or Stability: Effect of a Specific Thrombin Inhibitor on Thrombogenesis Induced by Aortic Subendothelium Exposed to Flowing Rabbit Blood, 1466

Thrombogenesis

Tissue Factor-Induced Coagulation Triggers Platelet Thrombus Formation as Efficiently as Fibrillar Collagen at Arterial Blood Flow Conditions, 1976

Thrombogenicity

Microvascular Endothelial Cell Sodding of 1-mm Expanded Polytetrafluoroethylene Vascular Grafts, 25

Thrombolysis resistance

Plasminogen Activator Inhibitor-1 Released From Activated Platelets Plays a Key Role in Thrombolysis Resistance: Studies With Thrombi Generated in the Chandler Loop, 1452

Thrombosis

Hemostatic Factors in the Coronary Artery Risk Development in Young Adults (CARDIA) Study, 686

n-3 Fatty Acid Ethyl Ester Administration to Healthy Subjects and to Hypertriglyceridemic Patients Reduces Tissue Factor Activity in Adherent Monocytes, 1600

Selective Inhibition of Platelet Macroaggregate Formation by a Recombinant Heparin-Binding Domain of Human Thrombospondin, 1784

Thrombospondin

Selective Inhibition of Platelet Macroaggregate Formation by a Recombinant Heparin-Binding Domain of Human Thrombospondin, 1784

Thromboxane A₂

Enhanced Collagen-Induced Responses of Platelets From Rabbits With Diet-Induced Hypercholesterolemia Are Due to Increased Sensitivity to TxA₂: Response Inhibition by Chronic Ethanol Administration in Hypercholesterolemia Is Due to Reduced TxA₂ Formation, 1379

Modulation of Thrombotic Responses in Moderately Stenosed Arteries by Cigarette Smoking and Aspirin Ingestion, 617

Thrombus formation

A Perfusion Chamber Developed to Investigate Thrombus Formation and Shear Profiles in Flowing Native Human Blood at the Apex of Well-Defined Stenoses, 1984

Modulation of Thrombotic Responses in Moderately Stenosed Arteries by Cigarette Smoking and Aspirin Ingestion, 617

Thrombin Plays a Key Role in Late Platelet Thrombus Growth and/or Stability: Effect of a Specific Thrombin Inhibitor on Thrombogenesis Induced by Aortic Subendothelium Exposed to Flowing Rabbit Blood, 1466

Tissue factor

Oxidized LDL Enhances Lipopolysaccharide-Induced Tissue Factor Expression in Human Adherent Monocytes, 790

Polar Expression of Tissue Factor in Human Umbilical Vein Endothelial Cells, 1815

Regulation of Tissue Factor Gene Expression in Epithelial Cells: Induction by Serum and Phorbol 12-Myristate 13-Acetate, 807

Role of the Lipopolysaccharide (LPS)-Binding Protein/CD14 Pathway in LPS Induction of Tissue Factor Expression in Monocytic Cells, 1202

Tissue Factor-Induced Coagulation Triggers Platelet Thrombus Formation as Efficiently as Fibrillar Collagen at Arterial Blood Flow Conditions, 1976

Tissue factor pathway inhibitor

Response of Plasma Tissue Factor Pathway Inhibitor to Diet-Induced Hypercholesterolemia in Crab-Eating Monkeys, 483

Tissue-Factor Pathway Inhibitor and Lipoproteins: Evidence for Association With and Regulation by LDL in Human Plasma, 223

Tissue plasminogen activator

Fibrinolytic Responses to Moderate Intensity Exercise: Comparison of Physically Active and Inactive Men, 1746

Lipoproteins Inhibit the Secretion of Tissue Plasminogen Activator From Human Endothelial Cells, 438

Tissue-type plasminogen activator

Effect of Notoinsenoside R1 on the Synthesis of Tissue-Type Plasminogen Activator and Plasminogen Activator Inhibitor-1 in Cultured Human Umbilical Vein Endothelial Cells, 1040

Transbilayer diffusion

HDL and Apolipoprotein A-I Protect Erythrocytes Against the Generation of Procoagulant Activity, 1775

Transesophageal echocardiography

Atherosclerotic Plaque Evolution in the Descending Thoracic Aorta in Familial Hypercholesterolemic Patients: A Transesophageal Echo Study, 1723

Transfection

Familial Hypercholesterolemia in China: Identification of Mutations in the LDL-Receptor Gene That Result in a Receptor-Negative Phenotype, 85

Overexpression of Human Lipoprotein Lipase Enhances Uptake of Lipoproteins Containing Apolipoprotein B-100 in Transfected Cells, 235

Transferrin

Cotranslational Inhibition of ApoB-100 Synthesis by Cyclosporin A in the Human Hepatoma Cell Line HepG2, 780

Transforming growth factor- β

Effects of Candidate Autocrine and Paracrine Mediators on Growth Responses in Isolated Rat Arteries, 420

Transgenic mice

ApoE-Deficient Mice Are a Model of Lipoprotein Oxidation in Atherogenesis: Demonstration of Oxidation-Specific Epitopes in Lesions and High Titers of Autoantibodies to Malondialdehyde-Lysine in Serum, 605

Transgenic models

Susceptibility to Diet-Induced Atherosclerosis in Transgenic Mice Expressing a Dysfunctional Human Apolipoprotein E(Arg 112,Cys142), 1873

Transgenic mouse model

ApoE-Deficient Mice Develop Lesions of All Phases of Atherosclerosis Throughout the Arterial Tree, 133

Transplant arteriosclerosis

Cyclosporin Suppresses Transplant Arteriosclerosis in the Aorta-Allografted, Cholesterol-Clamped Rabbit: Suppression Preceded by Decrease in Arterial Lipoprotein Permeability, 944

Transplantation

Interaction of the Allogeneic State and Hypercholesterolemia in Arterial Lesion Formation in Experimental Cardiac Allografts, 734

Triglyceride

Rice Bran Oil Consumption and Plasma Lipid Levels in Moderately Hypercholesterolemic Humans, 549

Short-term Consumption of a Low-Fat Diet Beneficially Affects Plasma Lipid Concentrations Only When Accompanied by Weight Loss, 1751

Triglyceride lipolysis

Effect of Human ApoE4 on the Clearance of Chylomicron-like Lipid Emulsions and Atherogenesis in Transgenic Mice, 1542

Triglyceride-rich lipoproteins

Dietary Fat Induces Changes in Factor VII Coagulant Activity Through Effects on Plasma Free Stearic Acid Concentration, 214

Liposome-like Particles Isolated From Human Atherosclerotic Plaques Are Structurally and Compositionally Similar to Surface Remnants of Triglyceride-Rich Lipoproteins, 622

Triglycerides

Association of Factor VII Genotype With Plasma Factor VII Activity and Antigen Levels in Healthy Indian Adults and Interaction With Triglycerides, 1923

Correlation of Vitamin K-Dependent Clotting Factors With Cholesterol and Triglycerides in Healthy Young Adults, 1737

Effects of Exercise Training on the Chemical Composition of Plasma LDL, 325

Factor VII Coagulant Activity and Antigen Levels in Healthy Men Are Determined by Interaction Between Factor VII Genotype and Plasma Triglyceride Concentration, 193

Familial and Diet-Induced Hypercholesterolemia in Swine: Lipid, ApoB, and ApoA-I Concentrations and Distributions in Plasma and Lipoprotein Subfractions, 923

High Fibrinogen and Plasminogen Activator Inhibitor Activity in Growth Hormone-Deficient Adults, 434

Human HDL Cholesterol Levels Are Determined by ApoA-I Fractional Catabolic Rate, Which Correlates Inversely With Estimates of HDL Particle Size: Effects of Gender, Hepatic and Lipoprotein Lipases, Triglyceride and Insulin Levels, and Body Fat Distribution, 707

Hypercholesterolemic Effect of Dietary Cholesterol in Diets Enriched in Polyunsaturated and Saturated Fat: Dietary Cholesterol, Fat Saturation, and Plasma Lipids, 168

Hyperinsulinemia Predicts Multiple Atherogenic Changes in Lipoproteins in Elderly Subjects, 518

Insulin Sensitivity Is Not an Independent Determinant of Plasma Plasminogen Activator Inhibitor-1 Activity, 1264

Lipoprotein Abnormalities in Non-Insulin-Dependent Diabetic Patients With Impaired Extrahepatic Insulin Sensitivity, Hypertension, and Microalbuminuria, 911

Potent Cholesterol-Lowering Effect by Human Granulocyte-Macrophage Colony-Stimulating Factor in Rabbits: Possible Implications of Enhancement of Macrophage Functions and an Increase in mRNA for VLDL Receptor, 1534

Radical-Mediated Oxidation of Isolated Human Very-Low-Density Lipoprotein, 1186

Regulation of Plasma HDL Cholesterol and Subfraction Distribution by Genetic and Environmental Factors: Associations Between the *TaqI* B RFLP in the CETP Gene and Smoking and Obesity, 336

Relations of Plasma TG and HDL-C Concentrations to Body Composition and Plasma Insulin Levels Are Altered in Men With Small LDL Particles, 1121

The Effect of Three Serum Basic Proteins on the Mass of Lipids in Normal and HyperapoB Fibroblasts, 1

The LPL Gene in Individuals With Familial Combined Hyperlipidemia and Decreased LPL Activity, 869

Trypsin

Mast Cells of Two Types Differing in Neutral Protease Composition in the Human Aortic Intima: Demonstration of Trypsin- and Trypsin/Chymase-Containing Mast Cells in Normal Intimas, Fatty Streaks, and the Shoulder Region of Atheromas, 966

Tumor necrosis factor

Antioxidants Inhibit Monocyte Adhesion by Suppressing Nuclear Factor- κ B Mobilization and Induction of Vascular Cell Adhesion Molecule-1 in Endothelial Cells Stimulated to Generate Radicals, 1665

Effect of Endotoxin and Cytokines on Lipoprotein Lipase Activity in Mice, 1866

Tumor necrosis factor- α

Oxidized LDL Enhances Lipopolysaccharide-Induced Tissue Factor Expression in Human Adherent Monocytes, 790

Turnover

Regulation of Serum Cholesterol Level in Middle-Aged and Elderly Men: Relation of Cholesterol Absorption and Synthesis to Lipoprotein Metabolism, 694

Type IIB hyperlipoproteinemia

Complex Segregation Analysis Provides Evidence for a Major Gene Acting on Serum Triglyceride Levels in 55 British Families With Familial Combined Hyperlipidemia, 1233

Type III hyperlipoproteinemia

Susceptibility to Diet-Induced Atherosclerosis in Transgenic Mice Expressing a Dysfunctional Human Apolipoprotein E(Arg 112,Cys142), 1873

U**U46619**

Enhanced Coronary Vasoconstrictive Response to Serotonin Subsidizes After Removal of Dietary Cholesterol in Atherosclerotic Monkeys, 951

Ubiquinol

Radical-Mediated Oxidation of Isolated Human Very-Low-Density Lipoprotein, 1186

Ultrasonography

Common Carotid Intima-Media Thickness and Lower Extremity Arterial Atherosclerosis: The Rotterdam Study, 1885

Ultrasound

Arterial Imaging and Atherosclerosis Reversal, 177

Correlation of Ultrasound-Measured Common Carotid Artery Stiffness With Pathological Findings, 479

Ultrasound imaging

Early Changes of the Arterial Carotid Wall in Uncomplicated Primary Hypertensive Patients: Study by Ultrasound High-Resolution B-Mode Imaging, 1290

Ultrasound investigation

Ultrasound-Determined Intima-Media Thickness and Atherosclerosis: Direct and Indirect Validation, 261

Unsaturated fatty acids

¹³C-NMR Spectroscopy of Human Atherosclerotic Lesions: Relation Between Fatty Acid Saturation, Cholesteryl Ester Content, and Luminal Obstruction, 1951

Short-term Consumption of a Low-Fat Diet Beneficially Affects Plasma Lipid Concentrations Only When Accompanied by Weight Loss: Hypercholesterolemia, Low-Fat Diet, and Plasma Lipids, 1751

V**Vascular cell adhesion molecule-1**

Antioxidants Inhibit Monocyte Adhesion by Suppressing Nuclear Factor- κ B Mobilization and Induction of Vascular Cell Adhesion Molecule-1 in Endothelial Cells Stimulated to Generate Radicals, 1665

Vascular cell adhesion molecule-1

Increased Expression In Vivo of VCAM-1 and E-Selectin by the Aortic Endothelium of Normolipemic and Hyperlipemic Diabetic Rabbits, 760

Interaction of the Allogeneic State and Hypercholesterolemia in Arterial Lesion Formation in Experimental Cardiac Allografts, 734

Vascular disease

Treatment of Mild Hyperhomocysteinemia in Vascular Disease Patients, 465

Vascular grafts

Microvascular Endothelial Cell Seeding of 1-mm Expanded Polytetrafluoroethylene Vascular Grafts, 25

Vascular smooth muscle

Lipoproteins Are Major and Primary Mitogens and Growth Promoters for Human Arterial Smooth Muscle Cells and Lung Fibroblasts In Vitro, 288

Structural Organization of Reconstituted Human Arterial Smooth Muscle Tissue, 644

Vascular smooth muscle cell proliferation

Antiproliferative Effect of Desferrioxamine on Vascular Smooth Muscle Cells In Vitro and In Vivo, 299

Vascular smooth muscle cells

Inhibition of PDGF Receptor Binding and PDGF-Stimulated Biological Activity In Vitro and of Intimal Lesion Formation In Vivo by 2-Bromomethyl-5-Chlorobenzene Sulfonylphthalimide, 1047

Vasospasm

Alterations in Basal and Serotonin-Stimulated Calcium Permeability and Vasoconstriction in Atherosclerotic Aorta, 1854

Venous thrombosis

High Prevalence of Hyperhomocyst(e)inemia in Patients With Juvenile Venous Thrombosis, 1080

Very-low-density lipoprotein

Plasma Lipoproteins in Familial Dysbetalipoproteinemia Associated With Apolipoproteins E2(Arg158→Cys), E3-Leiden, and E2(Lys146→Gln), and Effects of Treatment With Simvastatin, 1705

Susceptibility to Diet-Induced Atherosclerosis in Transgenic Mice Expressing a Dysfunctional Human Apolipoprotein E(Arg 112,Cys142), 1873

Very-low-density lipoprotein remnants

Triglyceride-Rich Lipoproteins Isolated by Selected-Affinity Anti-Apolipoprotein B Immunoadsorption From Human Atherosclerotic Plaque, 1767

Vessel wall passivation

Contribution of Platelets and the Vessel Wall to the Antithrombotic Effects of a Single Bolus Injection of Fab Fragments of the Antiplatelet GPIIb/IIIa Antibody 7E3 in a Canine Arterial Eversion Graft Preparation, 375

Viscosity

Sex Differences in Susceptibility to Etiologic Factors for Peripheral Atherosclerosis: Importance of Plasma Fibrinogen and Blood Viscosity, 862

Vitamin B₆

Treatment of Mild Hyperhomocysteinemia in Vascular Disease Patients, 465

Vitamin E

Comparative Study on the Effect of Low-Dose Vitamin E and Probucol on the Susceptibility of LDL to Oxidation and the Progression of Atherosclerosis in Watanabe Heritable Hyperlipidemic Rabbits, 1386

Effects of Linoleate-Enriched and Oleate-Enriched Diets in Combination With α -Tocopherol on the Susceptibility of LDL and LDL Subfractions to Oxidative Modification in Humans, 557

Vitamin E Protects Against Impairment of Endothelium-Mediated Relaxations in Cholesterol-Fed Rabbits, 494

VLDL

Inhibition of Hepatic ACAT Decreases ApoB Secretion in Miniature Pigs Fed a Cholesterol-Free Diet, 1498

Lactoferrin Binding to Heparan Sulfate Proteoglycans and the LDL Receptor-Related Protein: Further Evidence Supporting the Importance of Direct Binding of Remnant Lipoproteins to HSPG, 2025

Lipoproteins Are Major and Primary Mitogens and Growth Promoters for Human Arterial Smooth Muscle Cells and Lung Fibroblasts In Vitro, 288

Overexpression of Human Lipoprotein Lipase Enhances Uptake of Lipoproteins Containing Apolipoprotein B-100 in Transfected Cells, 235

VLDL receptor

Potent Cholesterol-Lowering Effect by Human Granulocyte-Macrophage Colony-Stimulating Factor in Rabbits: Possible Implications of Enhancement of Macrophage Functions and an Increase in mRNA for VLDL Receptor, 1534

von Willebrand factor

Morphological Alterations in Endothelial Cells Associated With the Release of von Willebrand Factor After Thrombin Generation In Vivo, 990

Polar Expression of Tissue Factor in Human Umbilical Vein Endothelial Cells, 1815

W**Waist to hip ratio**

High Fibrinogen and Plasminogen Activator Inhibitor Activity in Growth Hormone-Deficient Adults, 434

Wall shear rate

Modulation of Thrombotic Responses in Moderately Stenosed Arteries by Cigarette Smoking and Aspirin Ingestion, 617

Weibel-Palade bodies

Morphological Alterations in Endothelial Cells Associated With the Release of von Willebrand Factor After Thrombin Generation In Vivo, 990

Weight loss

Short-term Consumption of a Low-Fat Diet Beneficially Affects Plasma Lipid Concentrations Only When Accompanied by Weight Loss, 1751

WHHL rabbits

Cell Compositions of Coronary and Aortic Atherosclerotic Lesions in WHHL Rabbits Differ: An Immunohistochemical Study, 931

Comparative Study on the Effect of Low-Dose Vitamin E and Probucol on the Susceptibility of LDL to Oxidation and the Progression of Atherosclerosis in Watanabe Heritable Hyperlipidemic Rabbits, 1386

Recombinant Human Macrophage Colony-Stimulating Factor Reduces Plasma Cholesterol and Carrageenan Granuloma Foam Cell Formation in Watanabe Heritable Hyperlipidemic Rabbits, 70

Women

Factor VII Coagulant Activity and Cholesterol Changes in Premenopausal Women Consuming a Long-term Cholesterol-Lowering Diet, 1284

Multivariate Analysis of the Insulin Resistance Syndrome in Women, 1940

Serum Ferritin, Sex Hormones, and Cardiovascular Risk Factors in Healthy Women, 857

Y**Yucatan minipigs**

n-3 Fatty Acid Incorporation Into LDL Particles Renders Them More Susceptible to Oxidation In Vitro but Not Necessarily More Atherogenic In Vivo, 1170
